PROGRAM INVITATION

You're Invited to Celebrate Learning with Us!

Program 1: MUTABLE AND IMMUTABLE TYPES IN PYTHON

      Mr. Hulk is tired of body building. He now wants to exercise his brain. He has found his interest in Python. As a 1st initiative he wants to build a program to store university details of CHRIST (DoE, Campuses, Administrators details, Department details, Programmes, Course details, student details etc. Since you are the budding data scientists please help him in achieving his accomplishments.

      NOTE: For the sake of simplicity course, teachers and students details can be restricted to MDS program of computer science department.
